The Justice Department  
Washington D C

Dear Sirs,

Please accept the settlement with Microsoft.

I want to let you know that consumer interests have been well served, and the time to end this costly and damaging litigation has come. Dragging out this legal battle further will only benefit a few wealthy competitors, lawyers, and special interest bigwigs. Not one new product that helps consumers will be brought to the marketplace.

Sincerely,  
Vin Gokhale
